

NRV Rocketry

PRESENTS OUR FIRST ANNUAL

MIG*

Fly a rocket with a pumpkin or gourd payload to win fabulous prizes for:

- highest flying gourd
- best dressed gourd (whatever that means)
- closest to the target landing
- best Halloween themed rocket

The rules:

- *All payloads must be equipped with an RSO approved recovery device*
 - *Rockets 3" diameter or larger, fly with a mini pumpkin/gourd with parachute recovery*
 - *Rockets 1"-2.9" diameter, fly a candy pumpkin with streamer recovery*
 - *Rockets smaller than 1" diameter, fly a candy corn with streamer recovery*
- All 'payloads' must remain attached to the recovery device. If recovery is tied to a stem, and the stem comes off the flight is disqualified.*
- The payload must separate from the rocket and have it's own recovery device*

* **Oh My Gourd Rocket Launch**
